

## Cedar Ridge Masking Survey September 2022

1. How often do you attend the Sunday morning service in-person?

77 responses

2. Currently everyone is masked for Sunday services. How would your (and your family's) attendance change if masking were optional?

For those who attend every week or most Sundays:

- 17% (8 people) would prefer it
- 63% (30 people) no impact
- 15% (7 people) would be hesitant/less likely to attend
- 6% (3 people) would not come

For those who attend sometimes or occasionally:

- 30% (7 people) would or might attend more regularly
- 48% (11 people) no change
- 13% (3 people) would not attend
- 9% (2 people) response ambiguous: "yes"

For those who never attend:

- 50% (3 people) no change
- 50% (3 people) might attend more often

**Summary:**

- Optional masking would mean we lose 3 regular and 3 occasional attenders, and risk 7 others; but 9 occasional/non-attenders and one “most Sundays” might come more often.
- 1 “sometimes” person said they will probably go elsewhere if masking is not made optional soon.
- 66% won’t change their attendance either way.
